

## MECHANICAL ENGINEERING

- // Manufacturers of machines for glass production / production technology
- // Manufacturers of machines for glass processing and refinement - including laser technology and display technology
- // Manufacturers of tools, spare parts and wearing parts
- // Manufacturers of measurement and control technology for mechanical engineering
- // Consulting/ engineering for mechanical engineering

## CRAFTS

- // Glass refiners (edge and surface refining, grinding and engraving, glass painting and artistic glazing)
- // Glass apparatus construction
- // Window construction
- // Door and gate construction
- // Facade engineering
- // Metal construction
- // Wood and plastic processing crafts
- // Alternative energy generation (workmanship)

## MANUFACTURING, PROCESSING, FINISHING

- // Manufacturers of base glass (flat glass; hollow glass: Container glass, table ware; tubular glass; special glass: Technical glass, display glass; fibre glass: textile glass fibres, glass wool)
- // Manufacturers of processed and refined glass (insulating glass, safety glass, laminated glass, building and furniture glass, special glass, technical glass, display glass)
- // Glass suppliers (chemicals industry, metal construction, building material suppliers, services)

## ARCHITECTURE / CONSTRUCTION

- // Architectural offices
- // Engineering and planning offices
- // Interior design (also furniture industry)
- // Trade fair construction and shop fitters
- // Construction industry (construction engineers and structural engineers)

## WINDOWS + FACADES

- // Facade engineering
- // Metal construction
- // Window construction

## SOLAR

- // Solar industry
- // Environmental sector
